TRAVEL NEWS

Take in US cities as a local

If you're sick of trailing around cities ticking off landmarks then the *Not For Tourists* guidebook

series could be for you.

Billed as guides for "urban dwellers who love cities" the series claims to offer visitors the

key to experiencing destinations as a local.

Each pocket-sized guide is stuffed with maps and info, from the nearest farmer's market to the best cabaret venue.

Cities featured so far include New York, Boston, Washington DC, San Francisco and LA.
